Thanks all!

Mike – are you referring to the statement Martha issued? If so – I shared that w CBE on Friday.

Chip informed me that he's in the process of coordinating with others from CBE to hold a meeting on July 20 to discuss this topic. See attached thread. I might also circle back with Jennifer to confirm that path meets her needs as well.

Slight qualification: we actually have a real statement statement, like the kind that was publicly issued, not desk statement. Let me know if you need it.

Re joint meeting idea, I will note that we were offered a slot alongside DTSC in the press conference announcing the listing request, and declined...but I know that the type of joint meeting you raise below would be quite different from a press conference.

You probably already got info from Chip, but OPA also has a desk statement on the Exide listing request that might be informative. Copying Mike Alpern here.

FYSA since Martha mentioned East Yard Communities for Environmental Justice had recently contacted her about Exide as well. Looks like Chip Poalinelli of SEMD is the contact for the NPL listing request. I'll get in touch with him to see if he can provide additional details and share back with CBE.

I imagine there would be a good amount of community interest in this. Wondering if DTSC/EPA have considered hosting joint meetings to help share information and answer questions.

Good morning Morgan, I hope this email finds you well. I've cced on this email my colleagues Idalmis and Roberto. We have been working on the Exide matter for CBE. Last week we saw the press release from DTSC petitioning to add Exide to the Superfund list (please see DTSC link below)

I was hoping you might be able to provide my office more information as to what happens next in this process so we may be able to share this information with our community members.

Thank you and I look forward to hearing from you.

Best,
Jennifer Ganata
